Subject: REPLY REQUESTED: Rescheduling the CZARA 6217 Conference Call: ASAP or Mid-July

Hi Gene,

Hopefully you received the cancellation notice on the June 16 conference call due to three key folks not being able to participate: you, Neil and Allison.

I am exploring whether to reschedule the meeting to mid July in order to provide time for NOAA and EPA to review the Guidance Document for implementation plan development in urban and rural residential areas which you noted would be available for external review by June 30, 2011 or whether to reschedule the meeting for mid-to-late June and focus on review of the draft TMDL IMD for traditional and Implementation Ready TMDL (IR-TMDL) development and implementation (still waiting for link to document) and schedule (still waiting for email with schedule). What do you think? Do you have a preference?

Cheers,

Jayne
